

Simple PDF Highlighter (Online)

1. To start, click 'Open' to open a PDF file:

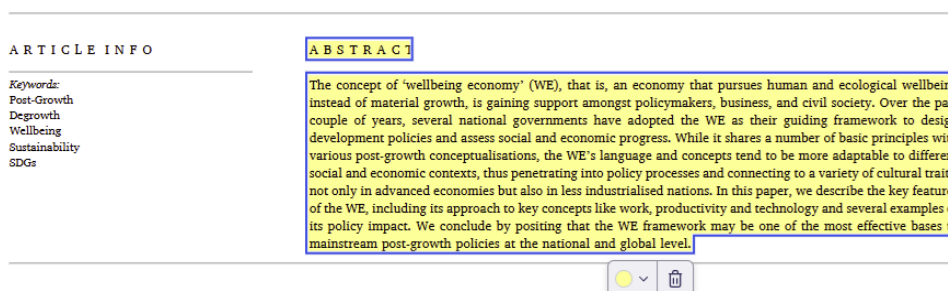

2. Then, click 'Highlight' to enter highlight mode.

3. Add highlights

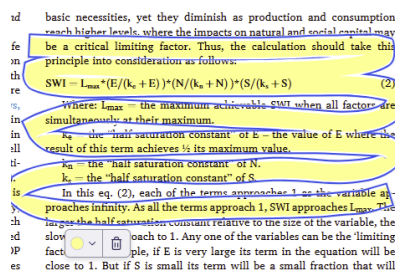

To **highlight text**, mouse over (hover) the start of text you wish to highlight. The mouse pointer will indicate it is ready to make a text highlight as shown: 

Hold the mouse down and move the mouse pointer to select the text you require. Release the mouse to add the highlight.

If you are unhappy with your highlight, delete it using the 'trash' icon: 

You can make **text independent** highlights by clicking and dragging the mouse over the page, starting in space with no text. The pointer will indicate it is ready to make a highlight as shown: 

4. Click 'Save' to save your PDF document.
